## PROJECTS

### QuizNode

- An educational web application where users can register or login to create/generate, search for, or take custom quizzes - built with **React, Node.js, MongoDB, and Open Trivia API**
- Live deployment at [qu1znode.herokuapp.com](https://qu1znode.herokuapp.com)

### The Best Employee Directory

- Web application where users can access a list of employees with personal information, such as name, email, and location - built with **React, Node.js, Bootstrap, and RandomUser API**
- Live deployment at [danielreza.github.io/employee\\_directory](https://danielreza.github.io/employee_directory)

### Zen Gong

- A web app that provides user with a positive affirmation when clicking the gong of zen - built with **React, Semantic UI React, and Howler.js**; GitHub repo: [github.com/danielreza/zenGong](https://github.com/danielreza/zenGong)

## WORK EXPERIENCE

### Coding Tutor, Self Employed

June 2021 - Present

- Currently tutoring and mentoring two students as they make their way through a coding boot camp - assisting with homework assignments, algorithm practice, and Git workflows

### Music Teacher/Mentor, Fusion Academy

June 2018 - July 2021

- Taught 6th-12th grade students musical subjects including guitar, piano, and music theory
- Designed and implemented specific lesson plans to match each student's learning style

### ADPS Advisor, Apple Inc.

June 2015 - June 2018

- Demonstrated critical thinking, sound judgment, and creative skills in order to deliver technical and administrative-level support to Apple developers from around the world
- Regularly submitted updates to make internal documentation more effective for the team
